We have something now that we know will be received with great favor, for two reasons In the first place, it is useful, artistic and good; in the second place, it is a bargain.

We are talking about the magnificent tea set shown in the illustration above. It consists of four pieces—teapot, cream-pitcher, sugar-bowl, and spoon holder. The cream-pitcher and spoon-holder are gold-lined. It is frost finish, with bright trimmings. It is delicately chased. The forms are pure, modeled after examples of Greek classic art, as will be noticed

We have secured a teapot of extra large size, being about one-third heavier than in the ordinary silver service. The ware is quadruple plate, so stamped and guaranteed. It is just such a set as sells in the ordinary retail stores for from \$8 to \$9. We have been very particular to get a specially desirable quality of ware from a standard manufacturer, and of the latest and most fashionable design. Any family not already fully supplied with artistic table furnishings will find this set all that can be desired. It cannot fail to give satisfaction. We will send this set complete, carefully packed in a wooden box, by express, to anyone who will send us a club of six yearly subscribers to The National Tribune and \$1.50 extra, to pay packing and incidental expenses.

If, however, anyone should desire the teapot without the other pieces, we will send it to any address for a club of five, without any additional money. If the sugar bowl, creampitcher or spoon-holder should be desired by those who are already supplied with a teapot, we will send these three pieces as a premium for a club of three for each piece, without additional money. In all cases these goods are sent by express, and the receiver will pay the charges, more on account of convenience and dispatch in doing business than for the amount involved, because the charges will be but trifling to any part of the country where there is an express office.
